

Student Portal Functionalities

Student self-service portal for academics, attendance, homework, and communication

Document Purpose

This document lists the required functionalities for this portal of the School Management ERP. It is focused only on functional scope and can be used for requirement discussion, estimation, UI planning, and development planning.

Portal Scope Summary

Area	Purpose
Main User	Student
Key Concept	Student can view personal academic data and perform allowed self-service actions
Core Responsibility	Attendance, timetable, homework, study material, exams, results, notices, and school services

Detailed Functionalities

1. Student Dashboard

- Today timetable, attendance percentage, homework status, notices, upcoming exams, result summary, fee status if allowed, study material updates, library status, and quick action links

2. Profile & Academic Identity

- View personal details, admission number, roll number, class, section, house, photo, contact details, parent details, documents, ID card, and change password

3. Attendance

- View daily/monthly attendance, subject-wise attendance, attendance percentage, absent/late/half-day records, teacher remarks, and download attendance report

4. Timetable

- Daily and weekly timetable, subject, teacher, period, room/lab, substitution updates, exam timetable, and holiday schedule

5. Homework & Assignment

- View assigned homework, assignment details, due dates, attachments, online submission, submission status, teacher remarks, marks/grades, and pending task list

6. Study Material & Learning Resources

- Access notes, PDFs, images, videos, links, subject-wise/chapter-wise material, teacher shared resources, and download history

7. Exams, Admit Cards & Results

- View exam schedule, exam instructions, admit card download, marks, grades, report card, teacher remarks, rank/percentage/CGPA if enabled, and previous results

8. Fees - Limited View

- View fee status if school allows, paid/pending fee summary, receipts, due date alerts, and payment acknowledgement

9. Notices & Communication

- View school notices, class notices, exam announcements, events, holiday updates, teacher messages, and message teacher if enabled by school

10. Leave Request

- Apply for leave if enabled, enter leave reason and dates, upload document, track approval status, and view leave history

11. Library

- View issued books, due dates, fines, book search, reservation request, and reading history

12. Transport

- View bus route, pickup/drop point, vehicle number, driver details, transport alerts, and live tracking if enabled

13. Certificates & Documents

- Download ID card and approved certificates, request certificates if enabled, view uploaded school documents and academic documents

14. Events & Activities

- View events, competitions, sports activities, event registration, participation records, certificates, and galleries

15. Security & Account

- Change password, logout from devices, notification preferences, and privacy-controlled access based on school policy

Recommended MVP Scope

- Dashboard
- Profile
- Attendance view
- Timetable
- Homework and assignment
- Study material
- Exam schedule
- Results/report card
- Notices
- Basic communication

Important Notes

- All permissions should be role-based and configurable where applicable.
- All important actions should be captured in activity logs for audit and security.
- The UI should be responsive and usable on desktop, tablet, and mobile browser.
- Data export should be controlled by permissions to avoid misuse of sensitive data.
