

Parent Portal Functionalities

Parent monitoring and communication portal for child academics, fees, and school updates

Document Purpose

This document lists the required functionalities for this portal of the School Management ERP. It is focused only on functional scope and can be used for requirement discussion, estimation, UI planning, and development planning.

Portal Scope Summary

Area	Purpose
Main User	Parent or guardian
Key Concept	Parent can track one or multiple children from a single account
Core Responsibility	Child attendance, fees, homework, results, communication, leave, transport, and alerts

Detailed Functionalities

1. Parent Dashboard

- Child profile summary, attendance overview, fee status, homework status, upcoming exams, result summary, notices, teacher messages, transport details, and pending actions

2. Child Profile

- View child personal details, class, section, roll number, admission number, photo, documents, medical details, emergency contacts, ID card, and sibling switch if multiple children are linked

3. Attendance Monitoring

- Daily/monthly attendance, subject-wise attendance, absent/late/half-day details, attendance percentage, low attendance alerts, and downloadable attendance report

4. Fees & Online Payment

- View fee structure, pending fees, paid fees, due dates, installments, discounts/concessions, late fee, online payment, payment history, and receipt download

5. Homework & Assignment Tracking

- View homework, assignment due dates, submitted/pending status, teacher remarks, marks/grades, and incomplete work alerts

6. Academic Progress & Results

- Exam schedule, marks, grades, report cards, teacher remarks, progress trends, weak subject highlights, and previous exam records

7. Notices & Announcements

- School notices, class notices, circulars, exam announcements, holiday announcements, event updates, and urgent alerts

8. Parent-Teacher Communication

- Message class teacher/subject teacher if allowed, receive teacher messages, request meetings, meeting history, complaints, feedback, and communication status

9. Leave Management for Child

- Apply leave for child, select dates, add reason, upload supporting document, track approval/rejection, and view leave history

10. Transport Tracking

- View route, pickup/drop point, vehicle number, driver/contact details, GPS/live tracking if enabled, transport fee status, and route change requests

11. Library & School Services

- View issued books, due dates, fines, library notices, certificate requests, school service requests, and request tracking

12. Events & Participation

- View school events, competitions, parent meetings, event registration if enabled, participation updates, photos/videos, and certificates

13. Notifications & Alerts

- Fee reminders, absence alerts, homework alerts, result alerts, notice alerts, transport alerts, and push/SMS/email/WhatsApp notifications based on school settings

14. Account & Security

- Manage parent profile, change password, notification preferences, linked children, and secure logout

Recommended MVP Scope

- Dashboard
- Child profile
- Attendance monitoring
- Fee view and payment
- Homework tracking
- Results/report card
- Notices
- Parent-teacher communication
- Leave request
- Notifications

Important Notes

- All permissions should be role-based and configurable where applicable.
- All important actions should be captured in activity logs for audit and security.
- The UI should be responsive and usable on desktop, tablet, and mobile browser.
- Data export should be controlled by permissions to avoid misuse of sensitive data.
