

SCHOOLLID

Building Future-Ready Schools

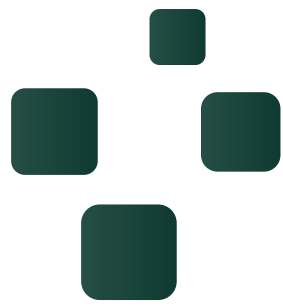

Design and Brand Guidelines

Why we exist

Education runs on systems. We make them effortless.
SchoolLID was built to change that. We unify admissions, academics, attendance, fees, and communication into one calm, intelligent platform — so educators can return their energy to what matters most: shaping the next generation.

Our mission

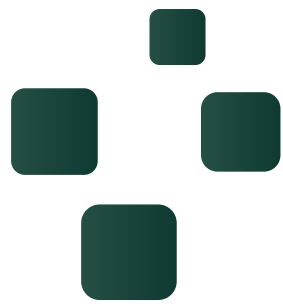

To give every school the technology to run brilliantly and the time to teach freely.

We replace fragmented, manual processes with one connected system that schools of any size can trust every single day.

Our Vision

A world where every school is future ready, data driven, and deeply human.

We imagine education systems that anticipate needs, surface insight, and let people lead — powered quietly by SchoolLID.

Who we serve

One platform, five audiences — each with a distinct job to be done.

School Owners

Want growth, brand reputation, and a clear return on every investment.

Principals

Need a live, bird's-eye view of academics, staff, and operations.

Administrators

Run admissions, fees, and records — and want the manual work gone.

TEACHERS

Want attendance, grading, and lesson tools that take seconds, not hours.

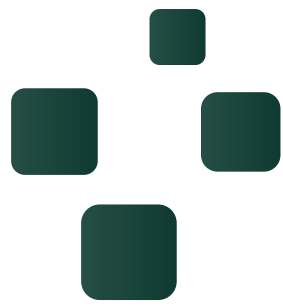

Parents

Expect real-time updates on progress, fees, and their child's day.

Logo system and placement

Primary Look

On dark Background

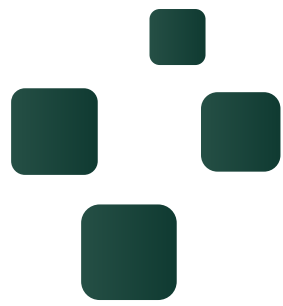

App Icon / Social Media / Website

Strictly for social media posts
or video watermarks

Only Icon can not be used for Print Media

Don't Stretch or Distort

Don't rotate the logo

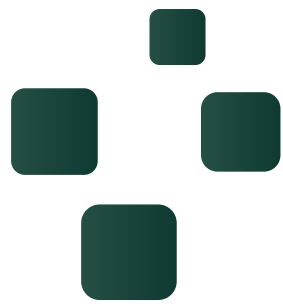

Don't recolor the mark

No drop Shadow
